

FAQS

Q. Will These Extensions or Hair Systems Damage My Hair?

A. No. Our systems use tiny adjustable nickel rings with silicon lining that grip enough of your hair to distribute the weight evenly and not cause damage. Our adhesive methods use the latest in surgical, medically approved polymers that are skin-only contact so that your scalp breathes normally and the hair underneath grows naturally.

Q. Will The Hair Look Fake?

A. Absolutely Not! With perfect texture, color matching and cut for extensions and/or sleek integration pieces, the results are undetectable.

Q. Is This Real Human Hair?

A. Our enhancements consist of beautiful quality remy human hair matched exactly to your own. This hair can be washed, colored, flatironed, or curled and will stay beautiful for up to a year with proper care

Q. How Often Will I Need to Come in To Maintain My System?

A. Clients schedule maintenance appointments every 3-4 weeks

Goddess Hair Extensions & Replacement

Immediate Solutions for
Hair Loss-A Wig is NOT Your
Only Option

A PERSONAL MESSAGE TO YOU....

Goddess Hair Extensions & Replacement was created in 2004 to address a growing need in the beauty industry for an all-inclusive approach to hair extensions and replacement.

It is our mission as hair enhancement professionals to provide you with beautiful, natural looking hair that withstands normal to rigorous activity such as styling, swimming, working out and everyday life.

Whether you are facing hair loss due to genetic thinning, cancer treatments, alopecia or simply want length or volume, your Goddess specialist will work with you individually to find the very best solution, and most of all..give you hope.

There is a large array of information on hair extensions and hair loss and we know that it can be a confusing, frustrating experience to search for options. We have worked with high-level stylists, manufacturers, dermatologists and oncologists to develop our exclusive, patent-pending methods that address specific requirements for a Goddess Hair Enhancement experience:

- Gorgeous, Premium Cuticle Human Hair
- Exact Texture and Color Blending
- Organic, Non-Damaging Application Methods
- Natural, Undetectable, Long-Lasting Results
- Easy, Cost Effective Maintenance

The Goddess Process

STEP 1-Free Consultation

Meet with a Goddess Professional to evaluate your situation and degree of thinning/loss

Fine Hair that won't grow past a certain point

Genetic Thinning

Full or Partial loss due to Alopecia or Chemo

Goddess Hair Extensions & Replacement

Immediate Solutions for Hair Loss

A Wig is NOT Your Only Option

Kris J. Integration 8 mos after total hair loss from chemotherapy

"Thank you so much for giving me my hair back! It's so wonderful to look and feel like I did before I lost my hair during chemo. Words can't express how much it means to look like myself again!"

Nicole M. Integration & Extensions

"Your work is so amazing. My hair never grows and always breaks off, I didn't think I would ever be able to have hair that looks so beautiful and natural-thanks!!!"

Angela T. Lacefront Wig for Alopecia

"I simply cannot believe how amazing this lacefront is-even up close, it looks as though the hair is growing out of my own scalp! I am blown away."

Natural Looking ~ Long-Lasting Premium Human Hair

STEP 2-Hair Design

Once we have designed a solution for you We will provide you options on color, length, texture, cut and style. Depending upon what you want, your service may consist of:

- Regular Goddess Loc Extensions
- Micro Goddess Loc Extensions
- The Goddess Integration Method
- The Goddess Lacefront Wig System

STEP 3 Upkeep/Future Options

We will give you a maintenance schedule to ensure that your enhancement lasts as long as possible. If you have a medical condition such as alopecia where you will continue to experience further loss, we will design a plan to walk you through this while maintaining beautiful, natural looking hair that won't damage future growth. If you are going through loss due to chemotherapy, we will also design a plan that will give you your look back as expediently as possible, even as soon as days after chemotherapy.
